USED KOMATSU EQUIPMENT. GUARANTEED KOMATSU QUALITY.

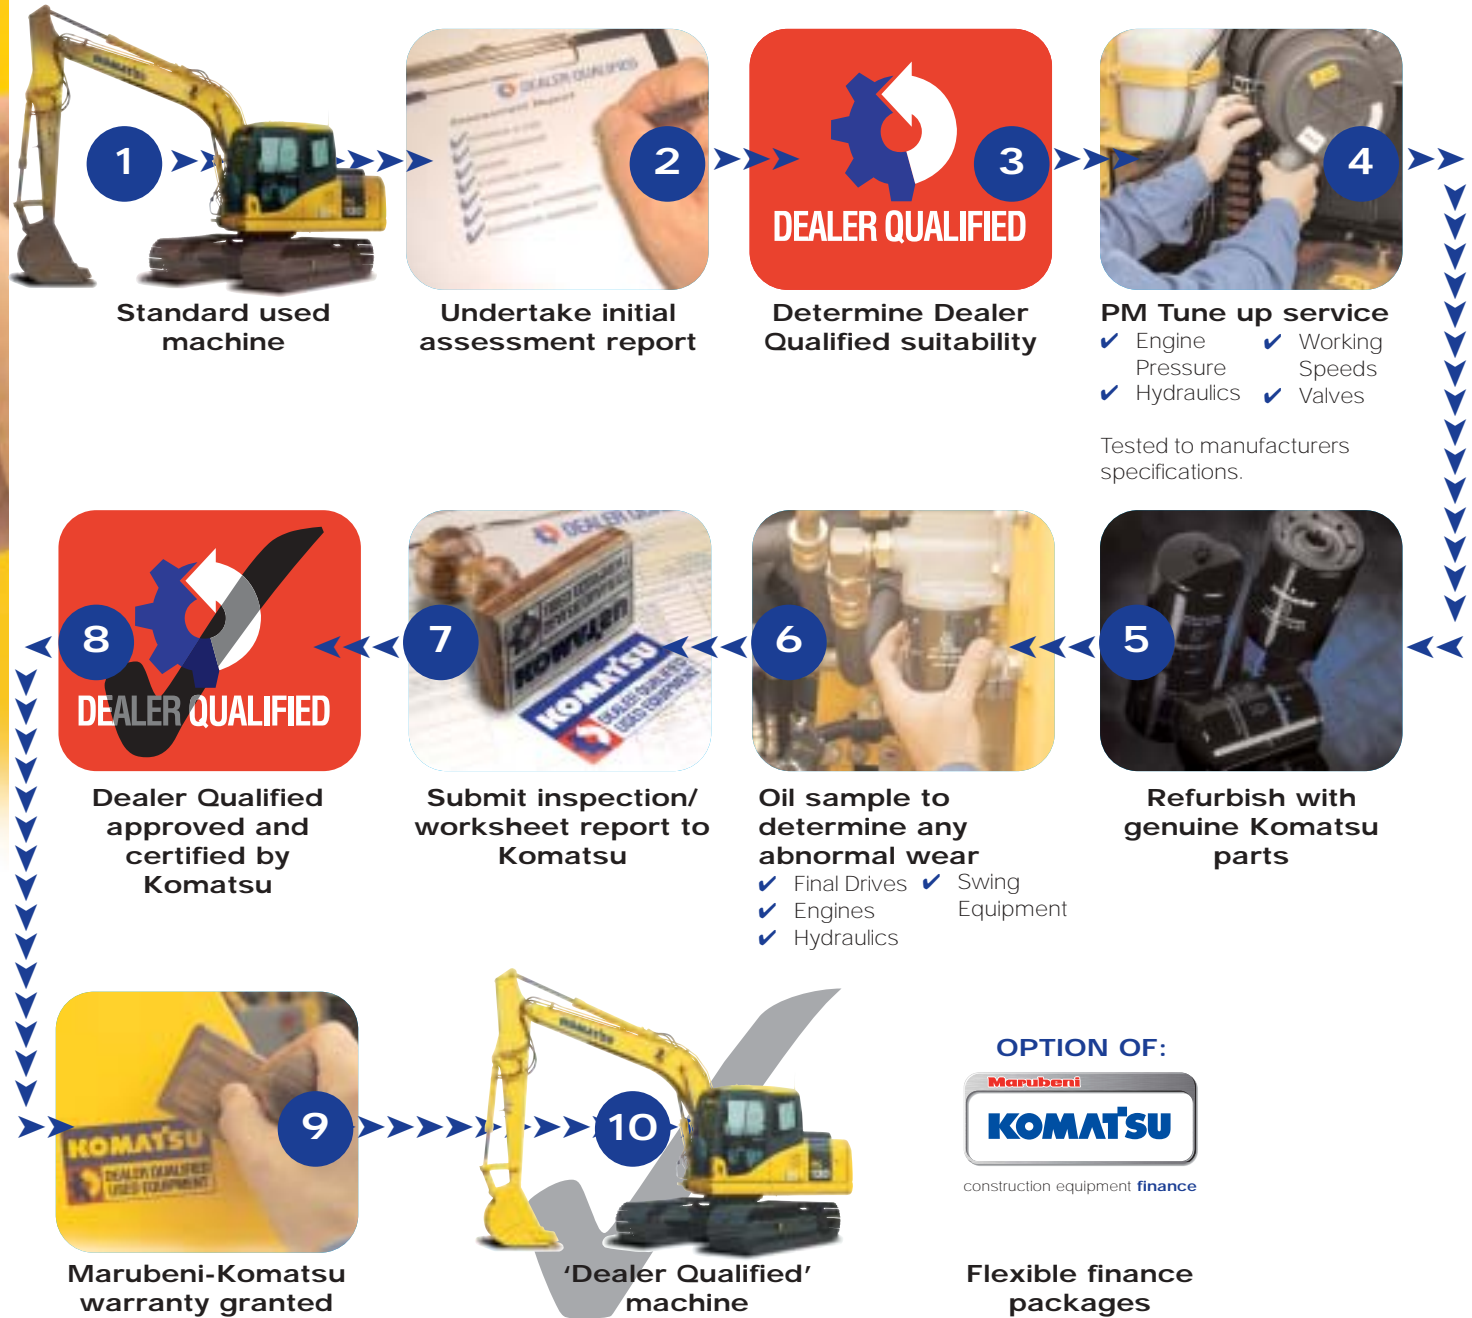

UNDERSTANDING THE NEW STANDARD FOR USED MACHINES

High quality, affordable machines that offer **real value** for money.

10 steps to Dealer Qualified

Dealer Qualified guarantees Komatsu quality for used machines

The 'Dealer Qualified' scheme from Marubeni-Komatsu is designed to raise the standard for used equipment and to provide peace of mind for anybody purchasing a previously owned Komatsu machine from us.

Once a machine has passed the stringent inspection and evaluation processes conducted by our own certified service technicians, we place a "Komatsu Dealer Qualified" stamp clearly on display. (We only use genuine Komatsu parts if any refurbishment is required, thereby meeting factory operational criteria to deliver maximum productivity!)

Specially tailored finance packages - organised through our own Marubeni-Komatsu Construction Equipment Finance - are integral to our efforts in assisting you in your purchase.

All "Komatsu Dealer Qualified" used machines are backed with a comprehensive warranty and we provide excellent after-sales service and parts availability through our UK network of dealers.

Flexible finance packages
